Soft Skills: Communication, Leadership, Planning, Quick Learner, Positive Attitude

PROFESSIONAL EXPERIENCE:

Software Developer – WP Web Infotech

April 2026 – Present | Ahmedabad

- Working as a Full-Stack Developer using **Vue.js**, **Vuetify**, **Spring Boot**, and **MySQL** to develop and maintain enterprise-level web applications.
- Troubleshooting production issues, fixing bugs, optimizing application performance, and improving overall user experience.
- Managing source code, branching strategies, and deployment workflows using **Git** and **Bitbucket**.
- Tracking tasks, sprint activities, and project progress using **Jira** while following Agile development practices.

Software Developer – Techaxion

July 2025 – April 2026 | Ahmedabad

- Developing scalable web applications using **Vue.js** ,**Nuxt.js**, **Nuxt Ui** , **Laravel** **Mysql**.

- Implementing new modules, improving UI/UX, and optimizing project performance.
- Collaborating with designers, testers, and backend teams for end-to-end development.
- Managing version control and workflows using **Git & GitLab**.

Software Developer – Php Infosec

Sept 2022 – June 2025 | Ahmedabad

- Built and maintained full-stack applications using Vue.js, Vuetify, Node.js, Express.js, **MongoDB**.
- Improved application performance through code optimization and structured API workflows.
- Conducted testing, bug-fixing, and deployment for live client applications.
- Led frontend development across multiple SaaS platforms with role-based access.

Coding Teacher – Enfowiz Computer Classes

May 2019 – Oct 2022

- Taught C, C++, Java, PHP, DSA, CCC, HTML, CSS, JavaScript, and Tally ERP.

PROJECTS:

1 FillUp A Petroleum Management System <https://fillup.softnent.com>

- **Role:** Full-Stack Developer | **Technologies:** Vue 3, Vuetify, Node.js, Express.js, MongoDB
- Developed a **multi-tenant, multi-user Petroleum Management System** designed to streamline daily operations for petrol businesses. The system provides comprehensive modules for managing **sales, receipts, inventory, customers, and reporting**, with **role-based permissions** for Admin, Manager, and Employee users. Integrated **Tally Prime** for real-time accounting synchronization and **WhatsApp API** for automated customer notifications.

2.Coaching Management System- <https://syvapp.paynent.in/>

- **Role:** Full-Stack Developer | **Technologies:** Vue 3, Vuetify 3, Node.js, Express.js, MongoDB
- Designed and developed a **complete coaching and school management system** to efficiently handle **students, teachers, fees, attendance, expenses, and system settings**. Implemented both the **backend architecture** (Node.js, Express, MongoDB) and **frontend interface** (Vue 3, Vuetify 3) ensuring smooth user experience, scalability, and role-based access control.
- Currently used by real clients, demonstrating reliability and scalability.

3. Advocate Management System- <https://advocase.softnenet.com>

- **Role:** Full-Stack Developer | **Technologies:** Vue 3, Vuetify, Node.js, Express.js, MongoDB
- Developed **Advocase**, a comprehensive **multi-tenant and role-based Advocate Management System** designed for law firms and individual advocates. The system enables efficient management of **clients, cases, advocates, receipts, expenses, and notifications** through a centralized platform. Fully customizable for each client with **personalized logo, database, hosting, and domain** integration.
- Currently used by real clients, demonstrating reliability and scalability.

4. Other Website Design With Admin Panel & Deployed Too

- <https://techaxion.com/> (Using Nuxt js , Typescript,Tailwindcss, MYSQL)
- <https://tradesapp.in/> (Using Nuxt js , Typescript, Tailwindcss MYSQL)
- <https://kunvarjiwealth.com/> (Using Laravel , Vue , Inertia, Tailwindcss)
